HOW TO TOUCH YOUR FACE LESS

The average person touches their face over 20 times per hour. Breaking this habit is really, really difficult. It’s so ingrained in what we do, it should be considered human behavior, not a bad habit. That being said, there are still ways to learn to touch your face less. These tricks are stopgaps intended to train your foul little fingers to stop prodding that extraordinary, marvelous face of yours.

Touch a different body part
Creating a counter-behavior is a proven way to break a bad habit. Every time you feel the need to touch your face, try touching your arm instead.

Hold a toy
Try holding a (disinfected) Rubix Cube, stress ball, or action figure. This will keep your hands busy and cut down on the number of times you touch you face.

Put a bandaid on your favorite finger
This won’t stop the spread of disease, but it’s a clever way of interrupting your brain’s bad habit of jamming your fingers into your eyes, nose, or mouth.

It’s a sensory clue that can help turn an unconscious habit into a conscious one.

Acknowledge the urge
Simply reminding yourself not to touch your face isn’t going to get you anywhere. Suppressing urges only makes them worse. Instead, acknowledge the urge and then practice your counter-behavior.

Use a tissue to touch your face.
And wash your hands first, otherwise you’re just touching your face with a contaminated tissue.

Wear gloves
This is the same trick as the Bandaid. Gloves won’t block the transmission of diseases, but wearing gloves can train you to touch your face less. It’s a sensory clue meant to disrupt an unconscious act.

Remember: your fingers are like pigeons, they are dirty, mindless creatures. And unless properly trained, they will wander.
Share Facts About COVID-19

Know the facts about coronavirus disease 2019 (COVID-19) and help stop the spread of rumors.

**FACT 1** Diseases can make anyone sick regardless of their race or ethnicity.

People of Asian descent, including Chinese Americans, are not more likely to get COVID-19 than any other American. Help stop fear by letting people know that being of Asian descent does not increase the chance of getting or spreading COVID-19.

**FACT 2** Some people are at increased risk of getting COVID-19.

People who have been in close contact with a person known to have COVID-19 or people who live in or have recently been in an area with ongoing spread are at an increased risk of exposure.

**FACT 3** Someone who has completed quarantine or has been released from isolation does not pose a risk of infection to other people.

For up-to-date information, visit CDC’s coronavirus disease 2019 web page.

**FACT 4** You can help stop COVID-19 by knowing the signs and symptoms:

- Fever
- Cough
- Shortness of breath

Seek medical advice if you develop symptoms AND

- Have been in close contact with a person known to have COVID-19 or if you live in or have recently been in an area with ongoing spread of COVID-19.

**FACT 5** There are simple things you can do to help keep yourself and others healthy.

- Wash your hands often with soap and water for at least 20 seconds, especially after blowing your nose, coughing, or sneezing; going to the bathroom; and before eating or preparing food.
- Avoid touching your eyes, nose, and mouth with unwashed hands.
- Stay home when you are sick.
- Cover your cough or sneeze with a tissue, then throw the tissue in the trash.

Crisis Centers for Adults and Children

Crisis Centers are centers that provide crisis counseling, solution-focused and recovery-oriented behavioral health assessments and stabilization. If you or someone you care about is experiencing a behavioral health crisis, or you aren’t sure what help may be needed, you may call or go to one of our crisis centers. These centers help resolve behavioral health crisis situations by offering individual crisis response, family support, link to resources and help to access behavioral health services, hospital care and hospital alternatives. The goal is to stabilize the situation so a person in crisis can return home safely, with plans and resources to manage any ongoing needs.

Youth Student Learning Support

As several Districts are closed in response to COVID-19, we are committed to continuing to support your students’ learning. The District offers a number of ways for students to engage in learning even while they are away from school.

The recommended activities below will not take the place of regular classroom instruction but will supplement student learning at home. Assignments will not be required or graded. These activities are meant to provide optional opportunities for student learning while they are absent from school. We encourage families to continue student learning at home.

DOWNLOAD ACADEMIC PACKETS: At-Home Activity Packs

At-Home Activity Packs - Independent practice for K-8 Mathematics and Literacy. These can be printed for students to complete at home and include a Parent Guide for Mathematics. These packets will also be available for pick-up at the same schools providing Grab-n-Go breakfast and lunch.

ONLINE LEARNING:

Khan Academy - Independent practice and guided learning for: K-12 Mathematics and Literacy; 9-12 Science and Social Studies, AP, and SAT
MyOn - Large library of online books with built-in reading supports.

Accessing Online Resources

Many of these online learning applications are available through Clever. For more information about logging in to Clever, please see the Clever Login Instructions.

For additional information about the District's online learning resources please see the Online Learning page.

Consider setting a schedule for your student

We recommend providing structure for your student. At school, students get used to their days following a certain structure. Communicating to your child that they will have a structure to follow for the next several weeks will set expectations and set everyone up to make the most out of this period of time.

Homework Hotline

Due to the COVID-19 3-week closure, the District is offering hours during the day for our Homework Hotline.

Beginning on Wednesday, March 18, 2020 - Friday, April 3, 2020 the hours will be as follows:

- Monday – Thursday: 9:00 AM – 12:00 PM, 1:00 PM – 4:00 PM, 5:00 PM – 8:00 PM
- Friday - 9:00 AM – 12:00 PM, 1:00 PM - 3:00 PM

Contact The Hotline: call 1-833-466-3978 during operating hours

In accordance with MDE guidance and requirements for students with IEPs, DPSCD will have ESE (certified Special Education Teachers) available via the Homework Hotline.
